## Press Release

### Signalion opens new production facility

Dresden, Germany

Signalion GmbH announced today that it has opened a new production facility for its 3GPP LTE Air-Interface Test- and Measurement Equipment.

“We are delighted to meet the increasing demand for our LTE test- and measurement products by opening this new production site”, said Dr. Tim Hentschel, Managing Director. “The new facility has been specially prepared to meet the complex customer requirements for product tailorization. We deliver a great variety of test systems such as purely digital ones as well as systems supporting one, two, four, or more antennas.”

Signalion is an established provider of air-interface diagnostics solutions for 3GPP-LTE. Having introduced the first LTE test-UE to the market, Signalion is a pioneer in providing new features and solutions in the context of LTE infrastructure testing.

The company combines the unique experience of many years of wireless research, algorithm implementation, and leading edge wireless system development.
